Bioremediation Site Information Form

Client Information

Company name: _____ Company contact: _____
Email: _____ Phone: _____
Fax: _____ Cellular: _____
Street address: _____
Shipping address: _____

Project Information:

Project Name: _____
Project Location: _____
Project Number: _____
Regulatory Agency: _____
Land Use and Zoning (Circle): Parkland Agricultural Residential Commercial Industrial

Site Information:

Site Location: _____
Estimated Time since Release: _____
Area of Contamination: _____
Maximum Depth of Contamination: _____
Volume of Contamination: _____
Contaminants and Concentration: _____
Soil Type (i.e.: gravel, sand, silty sand, silt, clay etc.): _____
Soil Moisture: _____ pH: _____ Redox Potential: _____ Salinity: _____
Total Metals: _____
C:N:P Ratio: _____
Depth to Groundwater: _____
Hydrogeologic Site (K) (if applicable): _____
Bacterial Count and Concentration (heterotrophic): _____
Bacterial Count and Concentration (hydrocarbon degraders): _____
Source of Contamination: _____ Groundwater Impacted: Yes / No
Current Remediation Activities: _____
Clean-up objectives: _____

Please Provide the Following:

- Site location map or drawing
- Site map showing source/treatment area and isoconcentration contours (if available)
- Site map showing monitoring and injection well locations and ROI estimates
- Table summarizing well construction details and GW level history
- Pilot test results (if available)
- Geologic cross section
- Copy of laboratory analytical results or summary table of contaminants of concern
- Site photographs
- Site investigation report
