Metals Site Information Form

Client Information

Company name: _____ Company contact: _____
Email: _____ Phone: _____
Fax: _____ Cellular: _____
Street address: _____
Shipping address: _____

Project Information:

Project Name: _____
Project Location: _____
Project Number: _____
Regulatory Agency: _____
Land Use and Zoning (Circle): Parkland Agricultural Residential Commercial Industrial

Site Information:

Metals speciation data (i.e. chrome6 vs. chrome3, arsenic5 vs. arsenic3): _____
Specific gravity if material (tones/m3): _____
Boring Logs: Yes / No
Estimated Time since Release: _____
Area of affected soil: _____ Maximum Depth of Contamination: _____
Volume of affected soil: _____
Soil Type (i.e.: gravel, sand, silty sand, silt, clay etc.): _____ Groundwater Impacted: Yes/No
pH: _____ Salinity: _____ C:N:P Ratio: _____ Moisture content of soil: _____
Contaminants and Concentration: _____
Source of Contamination: _____
Current Remediation Activities: _____
Clean-up objectives: _____
Is the contaminated material in its original location or has it been excavated and stockpiled? _____
Is the contaminated area at an active/inactive facility or being used for a commercial purpose? _____
Is the contaminated material still being produced or generated? _____
Type of area where the site is located (industrial, residential etc.) _____
Total square surface area: _____
Depth to initial contamination from surface: _____
Depth to lower limit of contamination: _____
Depth to water table from surface: _____
Depth to Groundwater: _____
Area of Contamination: _____
Maximum Depth of Contamination: _____
Current Remediation Activities: _____
Site description of where the remediation is to be conducted including site drawings: _____
Acceptable budget for work: _____
What scope of work is desired from IVEY?: _____
Estimated project start date: ____/____/____

Monitoring Well Network Information:

Number of Existing or Proposed Monitoring Wells: _____
Number of Proposed Injection Wells: _____
Number of Proposed Extraction Wells: _____

Metals Site Information Form

Please Provide the Following:

- Site location map or drawing
- Site map showing source/treatment area and isoconcentration contours (if available)
- Site map showing monitoring and injection well locations and ROI estimates
- Table summarizing well construction details and GW level history
- Pilot test results (if available)
- Geologic cross section
- Copy of laboratory analytical results or summary table of contaminants of concern
- Site photographs
- Site investigation report
